To speed your request, please include your CPS Energy account number _____

The Smart Thermostat program is for central air conditioners only.

I understand that CPS will have access to remotely cycle my A/C compressor off occasionally from 3 p.m. to 7 p.m. Monday through Friday during peak demand periods — typically the months of May, June, July, August and September. I also understand that the thermostat remains the property of CPS until I have participated in the program for three full cycling seasons.
